Super store

The Sparks Foundation Internship program By:
Shahd Moustafa

Agenda

- 1 About the data.
- 2 strength points.
- 3 weakness points.
- 4 recommendations.

1. About the data

- Our data is a superstore in US that sells 3 types of products:
- → Technology as "phones, copiers, etc".
- → Furniture as "chaires, Book cases, etc".
- Office supplies as "Fasteners, Envelopes, etc".

- The superstore ships it's supplies all over US and some places in Europe and Australia.
- Also the shipment can be in the same day, standard, first class and Second class either in US or outside of it.

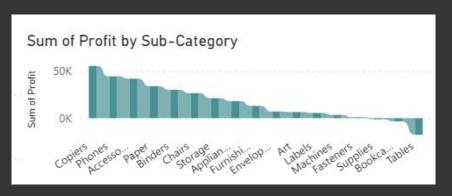

_

Strength points?

1 - Most sold is technology products.

2 - Most of them is the copiers.

_

3 - we have an income of 442.53 k and it can be Improved.

Income

442.53K

1- we lose more than 156K

Almost third of our income.

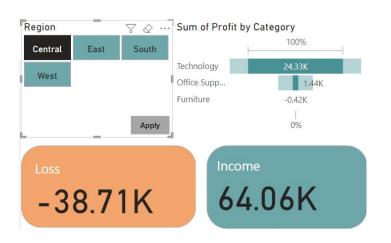

Loss - 156.13K

2- we lose so much in furniture almost

75% of our income from furniture is lost.

3- we lose more than 50% in the central area.

4- Discounts bigger than 30% make us lose.

—

4. Recommendations

1-Change delivery cost also based on the place,

Or by order like 10% of it.

2- Most of the discounts higher than 30 % gives a big loss so make them only for close places.

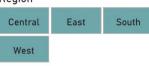

3- change the furniture or maybe try selling other common things.
